FOR OUTDOOR RESIDENTIAL USE

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For best results, be sure to read and follow all label directions.

BEFORE YOU USE Read and follow these directions when using:

- Do not apply near fish pools, ponds, streams or lakes.
- Food utensils such as teaspoons and measuring cups should not be used for food purposes after use with this insecticide.
- Keep children and pets away from treated area until it has been watered and allowed to dry.
- Do not use in vegetable gardens.

HOW TO USE

HOME PERIMETER TREATMENT

PESTS

Ants, Centipedes, Cockroaches, Crickets, Digger Wasps, Earwigs, Millipedes, Pillbugs, Scorpions, Sowbugs, Spiders, Termites*

HOW MUCH TO APPLY

1/3 to 1/2 cup per 45 to 50 ft. (2 to 3 ft. band) 2 to 3 lbs. per 1000 sq. ft. Treats perimeter of thirteen, 30 ft. by 60 ft. structures

HOW TO APPLY

Around the House: To keep these pests away from your home, apply granules in a band 2 to 3 feet wide around and up to the structure.

TIP: A hand-held spreader makes this easy.

For Ant Mounds or Wasp Burrows: Sprinkle 1 to 2 teaspoons of granules over the ant mound or wasp burrow. Treat wasps at night, after they are back in their nest.

TO CONTROL PESTS IN AND AROUND THE LAWN

PESTS

Annual Bluegrass weevil (hyperodes weevil), Ants, Armyworms, Billbugs, Black Turfgrass Ateanus, Chiggers, Chinch Bugs, Cutworms, European crane fly larvae, Fleas, Grasshoppers, Leafhoppers, Mealibugs, Mole Crickets, Mosquitoes, Sod Webworms (lawn moths), Ticks (including deer ticks), White Grubs (including larvae of Asiatic Garden Beetle, Black Turfgrass Ateanus, Chafer, Japanese Beetle, May or June Beetle, and Oriental Beetle)

HOW MUCH TO APPLY

2 to 3 lbs. per 1000 sq. ft. Adjust your spreader to the proper setting. See the following table.

This bag covers 5,000 sq. ft. which is the same as a band 5 feet wide and 1000 feet long.

HOW TO APPLY

Use rotary or drop type spreaders to apply granules evenly over the lawn, flower beds, ground covers, and around trees/shrubs.

To be sure you cover lawn areas uniformly, first treat the border of the lawn then fill in the center.

Make parallel passes, walking at a steady pace to ensure even distribution of the granules.

Water thoroughly within a day after applying.

TIP: For best control of white grubs, mole crickets, and European crane flies apply just before egg hatch. Contact your County Extension Agent for the ideal dates to apply in your area.

PESTS

Fire Ants

HOW MUCH TO APPLY

1/4 cup per mound

HOW TO APPLY

Fire Ant Mounds: Sprinkle evenly over mound. Treat new mounds as they appear.

FOR BEST RESULTS

- Water in thoroughly after applying.
- Do not mow until the granules are thoroughly watered in.
- To prevent pest damage, apply this product early- when pests are still young and easier to kill.
- For control of European crane fly larvae apply 3 lbs per 1,000 sq. ft.
- Also, for improved and extended protection against all pests, apply at the high rate of 3 lbs per 1,000 sq. ft.

*This product will kill workers and winged reproductive forms of termites that enter into the treated areas. Use of this type of product to kill termites should not be considered a substitute for soil treatment of subterranean termites done by a professional pest control operator.

Children and pets may re-enter after the treated area has been watered and allowed to dry.

IMPORTANT - Directions for Storage and Disposal

STORAGE CONDITIONS Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet.

DISPOSAL If Empty: • Do not reuse this container. • Place in trash or offer for recycling if available.

If Partly Filled: • Call your local solid waste agency or 1-877-229-3724 for disposal instructions.

• Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

CAUTION Hazards to Humans and Domestic Animals

- Harmful if swallowed, inhaled or absorbed through skin. • Causes moderate eye irritation.
- Avoid contact with skin, eyes or clothing. • Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. • Remove contaminated clothing and wash clothing before reuse.

FIRST AID +

IN CASE OF ACCIDENTAL ... IMMEDIATELY ...

- SWALLOWING** • Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.

- IF INHALED** • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.

- IF ON SKIN OR CLOTHING** • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.

- CONTACT WITH EYES** • Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. • Remove contact lenses, if present; after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.

- NOTE:** When calling poison control center, have this product label accessible. If seeking treatment at an emergency room or doctor's office, bring this product label to show medical personnel.

For medical emergency information, you may call toll-free 1-877-229-3763.

Active Ingredient: 0.15% Imidacloprid [CAS # 138261-41-3] and 0.05% Beta-Cyfluthrin [CAS # 68359-37-5].

ENVIRONMENTAL HAZARDS

- This pesticide is toxic to fish. Do not apply directly to water.
- Do not contaminate water when cleaning equipment or disposing of equipment wash water.
- Apply this product only as specified on this label.

NOTICE: Research and testing have determined that the "Directions for Use" are appropriate for the proper use of this product under expected conditions. The buyer assumes responsibility for lack of performance or safety if not used according to the directions.

Money Back Guarantee: If you are not satisfied with this product, we will gladly refund your original purchase price.

This product contains Bayer's proprietary 2-way action formula. Bayer Advanced's 2-way action controls turf pests like ants, fleas, and ticks plus soil pests like grubs in one easy step. It not only kills existing pests quickly, but also keeps on protecting for up to 90 days. Keeping the yard, lawn, and around your home free of listed nuisance pests has never been easier.

LEER LA ETIQUETA PRIMERO!

DATOS RÁPIDOS

- Mata tanto los insectos de la superficie como los del suelo
- Protección duradera, hasta 90 días de protección subterránea contra insectos

MATA	Hormigas, pulgas, garrapatas, gusanos, chinches del maíz, grillos cebolleros, larvas de la tipula europea y otras plagas de la lista
COBERTURA DÓNDE USAR	Cubre hasta 5,000 pies cuadrados (464 m ²)
CUÁNDO USAR	Plagas superficiales en general: siempre que se encuentren insectos Gusanos blancos: de mayo a julio Larvas de la tipula europea: aplicar una vez, cuando se encuentren insectos adultos en grandes cantidades
CUÁNTO USAR	Ver las indicaciones

SÓLO PARA USO RESIDENCIAL EN EXTERIORES

INDICACIONES DE USO

Es una violación de la Ley Federal utilizar este producto de manera contraria a la indicada en esta etiqueta.

Para obtener mejores resultados, asegúrese de leer y seguir todas las indicaciones de la etiqueta.

ANTES DE USAR Leer y seguir estas indicaciones al usuario:

- No aplicar cerca de pesceras, estanques, lagos o arroyos.
- No deben utilizarse utensilios de cocina, como cucharas y tazas medidoras, para preparar alimentos después de usuarios con el insecticida.
- Mantener a los niños y a las mascotas alejadas de la área tratada hasta que ésta se haya regado y seco.
- No usar este producto en huertas.

CÓMO USAR

TRATAMIENTO DEL PERÍMETRO DE SU CASA

PLAGAS

Hormigas, ciempiés, cucarachas, grillos, avispas excavadoras, tijeretas, milpiés, cochinillas, escorpiones, lepismas, arañas, termitas*

CUÁNTO APlicAR

De 1/3 a 1/2 taza para 45 a 50 pies, franja de 2 a 3 pies (14 a 15 m, franja de 0.6 a 0.9 m) 2 a 3 libras (0.9 a 1.4 kg) cada 1000 pies cuadrados (93 m²) Trata el perímetro de trece estructuras de 30 x 60 pies (9 x 18 m)

CÓMO APlicAR

Alrededor de la casa: para mantener a estas plagas alejadas de su casa, aplicar los gránulos en una franja de 2 a 3 pies (0.6 a 0.9 m) de ancho alrededor y hasta la estructura.

CONSEJO: un espaciador manual facilita la tarea.

Para los hormigueros o avisperos: esparcir de 1 a 2 cucharaditas de gránulos sobre el hormiguero o avispero. Tratar los avisperos durante la noche, luego de que las avispas regresen a su nido.

PARA CONTROLAR PLAGAS EN EL CÉSPED O ALREDEDORES:

PLAGAS

Gorgojos del Bluegrass anual (adultos), hormigas, gusanos soldado, escarabajos picudos (adulto), escarabajo negro (adulto), adoradores, chinches del maíz, gusanos cortadores, larvas de la tipula europea, pulgas, saltamontes, saltarillas, cocos, grillos cebolleros, orugas de tierra (polillas de tierra), garrapatas (incluida la garrapata de venado), gusanos blancos (incluidas las larvas del escarabajo de jardín asiático, escarabajo negro, cetonias, escarabajo japonés, melontona y escarabajo oriental).

CUÁNTO APlicAR

2 a 3 libras (0.9 a 1.4 kg) cada 1000 pies cuadrados (93 m²). Regular el espaciador según la graduación adecuada. Ver la tabla a continuación.

Esta tabla cubre 5,000 pies cuadrados (464 m²), que equivalen a una franja de 5 pies de ancho por 1000 pies de largo (1.5 m de ancho por 305 m de largo).

CONSEJO: Usar espaciadores de tipo giratorio o por goteo para aplicar los gránulos en forma pareja sobre el césped, canteros, cubiertas vegetales y en los alrededores de áboles y arbustos.

Para asegurarse de cubrir las áreas de césped de manera uniforme, tratar primero los bordes y luego el centro.

Hacer pasadas paralelas, a paso lento constante, para asegurar la distribución pareja de los gránulos.

Regar bien durante las 24 horas después de la aplicación.

CONSEJO: para controlar mejor los gusanos blancos, grillos cebolleros y tipulas europeas, aplicar justo antes de que se abran los huevos.

Póngase en contacto con el Representante de Extensión de su Condado para conocer las fechas de aplicación ideales para su área.

PLAGAS Hormigas de fuego

CUÁNTO APlicAR

1/4 de taza por hormiguero

CÓMO APlicAR

Hormigueros de hormigas de fuego: esparcir en forma pareja sobre el hormiguero. Tratar los hormigueros a medida que aparecen.
