

EcoEXEMPT® MC

MISTING CONCENTRATE

with  **EcoSMART BOTANICALS™**,
a blend of plant oils, tested and proven to kill and control a broad spectrum of insects.

ACTIVE INGREDIENTS:

Rosemary Oil	18.0%
Cinnamon Oil	2.0%
Lemongrass Oil	2.0%

OTHER INGREDIENTS:

Wintergreen Oil, Isopropyl Myristate, Lecithin	78.0%
--	-------

TOTAL: 100.0%

• FOR AUTOMATIC MISTING APPLICATIONS

- Provides rapid knockdown/kill and residual protection
- Kills/Controls Mosquitoes and Flying Insects
- Provides stable micro-emulsion in tank systems
- May be injected directly into tankless systems
- Safe for use around people, animals and pets
- Minimum-Risk pesticide

DIRECTIONS FOR USE

Note: EcoEXEMPT® MC may be used in tankless systems or systems that utilize tanks. Always use the EcoEMULSIFIER™ with EcoEXEMPT® MC. In tankless systems, EcoEMULSIFIER™ should be added at a 1:2 ratio to EcoEXEMPT® MC. In systems that use tanks, EcoEMULSIFIER™ should be added at a 1:1 ratio to EcoEXEMPT®MC in the diluted product, regardless of water content and tank size.

To mix a 55 gallon tank for automatic misting systems:

- Fill the storage tank half full with water.
- Mix 2 quarts of EcoEMULSIFIER™ with 2 quarts of EcoEXEMPT® MC in a pail and stir for 15-20 seconds.
- Add the blended EcoEMULSIFIER™ and EcoEXEMPT® MC to the storage tank.
- Finish filling the storage tank with water.

To mix less than 55 gallons for automatic misting systems:

- Fill the storage tank half full with water.
- Use EcoEXEMPT® MC at a 1:100 ratio to water
- Mix EcoEMULSIFIER™ with EcoEXEMPT® MC at a 1:1 ratio in a pail and stir for 15-20 seconds.
- Add the blended EcoEMULSIFIER™ and EcoEXEMPT® MC to the storage tank.
- Finish filling the storage tank with water.

When diluted with water in the storage tank, a micro-emulsion will exist and will remain stable in the tank for 60-90 days.

EcoEXEMPT® MC and EcoEMULSIFIER™ are specifically designed for systems with no or minimum agitation. It is recommended that systems with agitation have the agitation function turned off when using these products. If the agitation cannot be turned off it is recommended to add EcoEMULSIFIER™ to EcoEXEMPT® MC at a ratio of 1:7

To use in a "tankless system":

- Mix 1 part EcoEMULSIFIER™ with 2 parts EcoEXEMPT® MC (ratio of 1:2) in a pail and stir for 15 - 20 seconds.
- Fill the injection tank with EcoEXEMPT® MC/EcoEMULSIFIER™ mixture.

OUTDOOR USE

MOSQUITO CONTROL, FLY CONTROL AND OTHER BITING/NUISANCE INSECTS, INCLUDING SPIDERS – AUTOMATIC SPRAYING SYSTEMS:

To control Mosquitoes, Gnats and Flies, dispense EcoEXEMPT® MC with proper ratio of EcoEMULSIFIER™ as appropriate through automatic systems. Set nozzles to deliver appropriate product to provide desired protection based upon nozzle spacing, timing and frequency of applications, and specific equipment parameters. Locate nozzles as appropriate to cover protected areas.

EcoEXEMPT® MC may be used as a dilution in and around boat docks in misting systems to control spiders and other nuisance insects, and as an aid in the elimination of their harborage areas.

Since flying insects can migrate in and out of the treatment area, it is recommended to use this product as part of an Integrated Pest Management (IPM) program. This includes, but is not limited to, eliminating breeding and harborage sites.

KEEP OUT OF REACH OF CHILDREN

CAUTION

FIRST AID

IF IN EYES: Flush with plenty of water. Seek medical attention if irritation persists.

IF ON SKIN: Wash with soap and water.

IF INHALED: Remove exposed person(s) to fresh air.

IF SWALLOWED: Rinse mouth out with water. Do not induce vomiting. Seek medical attention if necessary.

PRECAUTIONARY STATEMENTS

May cause eye and skin irritation. Avoid contact with eyes, skin and clothing.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Persons handling concentrate are recommended to wear:

- Protective eyewear
- Chemical resistant gloves made of neoprene, nitrile or natural rubber

System Compatibility

In some systems there may be compatibility issues with some components of the system. It is recommended that you test the compatibility of EcoEXEMPT® MC and EcoEMULSIFIER™ before final installation and use.

User Safety Recommendations

User should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove clothing immediately if the product gets inside. Wash thoroughly and put on clean clothing. Remove PPE after handling this product. Wash the outside of the gloves before removing.

PHYSICAL AND CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame. Store only in original container.

STORAGE AND DISPOSAL

Pesticide Storage and Spill Procedures: Store upright at room temperature. Avoid exposure to extreme temperatures. In case of spill or leakage, soak up with an absorbent material such as sand, sawdust, earth, fuller's earth, etc. Dispose of with trash.

Container Disposal: Do not reuse container. Dispose of with ordinary trash.

Question or Comments: Call 1-888-326-7233 weekdays, 9 a.m. to 5 p.m. CST. Chemical Safety Information: Call 1-800-535-5053 anytime (InfoTrac Chemical Response System)
