Fragrance oil, plant fibers 98.0%

TOTAL: 100.0%

EPA Reg. No. 82016-1-64405

KEEP OUT OF REACH OF CHILDREN

General Information: EVAC Botanical Rodent Repellent repels by odor that is offensive to rodents, but not to humans. This product can be used effectively to repel rodents from treated areas for up to 30 days.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Indoors: Use in non-living areas (attics, basements, cellars, storage areas, garages, sheds, pantries, and barns). Place one scent pouch per 8 square feet in areas to be protected (i.e. use 4 pouches in a single car garage or one pouch in a pantry). Replace when scent has diminished. Length of effectiveness depends on air exchange rates and temperatures.

Enclosed Spaces: Use in autos, RVs, airplanes, boats, tractors, trucks, etc. Place four scent pouches per storage unit per season to freshen the average size camper, boat, truck or

auto. Replace scent pouches when scent has diminished. The product lasts up to 30 days in cold storage areas. Length of effectiveness depends on air exchange rates and temperature condition of storage areas.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal. **STORAGE:** Store in original container in cool, dry place that is inaccessible to children and pets. Keep container tightly closed to prevent evaporation. **DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. Promptly dispose of used pouches in the trash so as not to attract ravenous mice. Contents and packaging are biodegradable.

Notice: Buyer assumes all responsibility for safety and use not in accordance with directions.

Keep Rodents Out...
Naturally.

EVAC Botanical Rodent Repellent

EVAC is an EPA-registered product made with plant fibers, fragrance oil and balsam fir oil. The pleasant pine scent is formulated to be repellent to rodents. Simply place the pouches in non-living areas where rodents traditionally nest and replace the product when scent has diminished.

- Conveniently packaged in a granular form in 2.5 oz. pouches
- Easy placement indoors in non-living areas such as storage buildings, barns, pantries, attics and basements as well as in enclosed spaces like RVs, boats and electrical junction boxes – all popular hiding places for rodents.
- As a reduced-risk “green” product, EVAC requires no signal word such as “Caution”

According to the Environmental Protection Agency's web site, reduced-risk products include those that are biologically-based: “Biologically-based pesticides... are becoming increasingly popular and often are safer than traditional chemical pesticides.”
