Outlast™
NBS 30 Coatings Additive

For use in exterior paints, stains and coatings. Mix entire contents into five gallon size bucket of paint or stain (or add at a rate of 3.2 liquid ounces per gallon). **NBS 30 can also be mixed with water** at the same rates and sprayed as needed when a natural approach to insect control is desired. Mix thoroughly and stir occasionally during use. Apply coating as otherwise directed on its label via spray, brush or roller. Existing tunnels and insect infestations **MUST** be eliminated prior to use. See technical bulletin for details. **This product is soluble in commercial oil and water based paints and coatings.** Excellent results on decks, log homes, fences. Can be added to Water Sealers for concrete and brick applications. Note: Sheen will be flattened slightly in High Gloss coatings. NBS 30 is **NOT SUITABLE** for use in the control or elimination of termites or other wood ingesting insects.

Keep out of lakes and streams or areas designated for commercial honeybee farming. This product is toxic to fish. Avoid contact with eyes, skin, and clothing. Avoid breathing vapors or spray mist. Harmful if swallowed. Wash Thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

3/09 Contents: 16 oz.
