### **SNAKE OUT™ Snake Repellent**

**SNAKE OUT™ Snake Repellent** effectively repels snakes from around your home. Apply around homes, garages, barns, swimming pools, gardens, garden sheds, woodpiles, and other areas where snakes may be a problem. May be used in areas where children and pets play. SNAKE OUT™ Snake Repellent is biodegradable and, when used as directed, will not harm lawns, gardens, flowerbeds or other desirable plants.

This product is exempt from registration with the Federal EPA under section 25(b) of FIFRA, and as such, is not registered with the Environmental Protection Agency. Nisus Corporation represents that this product and its ingredients qualify for exemption from registration under FIFRA.

**How It Works:**

The unique blend of ingredients in this product trigger escape/avoidance behavior in snakes. Snakes actually taste the air around them (via a receptor organ known as the *Jacobson's organ*). This product provides a powerful scent/taste repellent that snakes find unpleasant and which triggers a natural reaction to escape and avoid. SNAKE OUT™ Snake Repellent does not harm snakes; it drives them away, naturally.

**How To Use:**

Using the convenient dispenser cap on this package, lightly sprinkle a band 6 – 8 inches wide, next to and around the area you wish to protect. It is not necessary to completely cover the ground with product. One pound will treat a band 8 inches wide by 50 feet in length. Do not water in after application. Reapply product after heavy rains or every two weeks to obtain best results.

Endangered Species Considerations – Before using this product, consult with State or local wildlife authorities to ensure that use does not present a hazard to any threatened or endangered species. Where necessary, obtaining all required permits and licenses is the responsibility of the applicator.

User Precautions – Reminder: Some snakes are poisonous; **NEVER** attempt to pick up a snake unless you are properly trained, experienced and know which species you are dealing with. Handling wild snakes is best left to experts. Contact your local wildlife management office for further information.

**First Aid**

Product can cause moderate eye irritation. For certain individuals, skin irritation may occur. In case of eye contact, flush with plenty of water. In case of skin irritation, wash area thoroughly with soap and water. Seek medical attention if irritation persists.

**Storage and Disposal:** Store and transport in an upright position. Store only in original container, in a dry place inaccessible to children and pets. Do not reuse empty container. Discard empty container in trash.

**Other Precautions:** Do not apply directly to water.

NOTICE: To the extent not prohibited by applicable law, buyer assumes all responsibility for safety and use not in accordance with label directions.
