

MOSQUITO SENTRY®

Natural Mosquito Defense

Highly effective, all-natural coverage, instantly.

The first effective automated system that uses 100% green and natural mosquito repellent.

PRODUCT DESCRIPTION

The Mosquito Sentry mosquito repellent system is your best and safest defense against mosquitoes. This 100% natural repellent, which is made from plant oils, is safe for people and pets, so everyone can enjoy the outdoors. Using patented vapor technology, the Mosquito Sentry repellent dispenser continuously dispenses the all-natural Mosquito Sentry repellent, covering up to 2,000 square feet of outdoor space.

APPROVED USE

The Mosquito Sentry repellent system is used within outdoor residential areas.

FEATURES

- Each fill provides up to 20 hours of protection
- 3-speed fan offers repelling intensity options
- Countdown timer system automatically turns off after 2, 4 or 8 hours
- Automatic shutoff disables the unit when it is empty or being moved
- Low level warning light lets you know it's time to refill
- Most effective repellent system available (more effective than the two most widely used repellents, citronella and DEET, per university study)
- Remote control for convenience
- Treats up to 2,000 square feet
- Easy to operate: plug in, add repellent, turn on
- No installation, no maintenance
- Compact system takes up very little space
- Environmentally friendly, 100% all-natural repellent safe for people and pets
- Refills are convenient and affordable
- Patented sub-micron vapor technology repels mosquitoes and other flying insects
- Not harmful to beneficial insects, like bees and butterflies

EFFECTIVE AGAINST

- Mosquitoes
- Other flying insects
